

Hair, Nails, & Puppy Dog Tails

Have you ever seen a dog **screaming bloody murder** while four people are desperately trying to hold it still simply to clip its nails or do its bath? We run into this type of **stressed out, panic** behavior *daily*. It's not fun, fair or safe for the dog or the staff. Often times, we decide it is not worth stressing the dog out or risking injury. We send the owner to the vet, where they incur a large bill to have their dog sedated for a simple nail trim.

So, we created the “Hair, Nails, and Puppy Dog Tails” program to help puppies grow into dogs who are ok with being groomed (and hopefully even enjoy it!).

Program includes:

- 6 days of training and dayboards in a loft (minimum 3 potty outings/day).

Training includes habituation to:

- Grooming table handling
- Nail clipping and Dremel
- Ear cleaning
- Bathing
- Drying
- Shaver/Clipper
- Teeth Brushing
- Coat Brushing

Includes free:

- Nail trims, baths, etc. during the program.
- Daily chew treat
- 1 lesson with the owner
- Potty training continuation (while at Dogwoods)
- Follow-up support, as needed (regarding grooming issues)

Note: If the 6 days isn't enough to get a puppy acclimated to a needed grooming element, additional days will be comped. Also, we recommend 2 days/week for 3 weeks or 1 day/week for 6 weeks. Pups must be under 5 months.

Price: \$450
